

Working from home

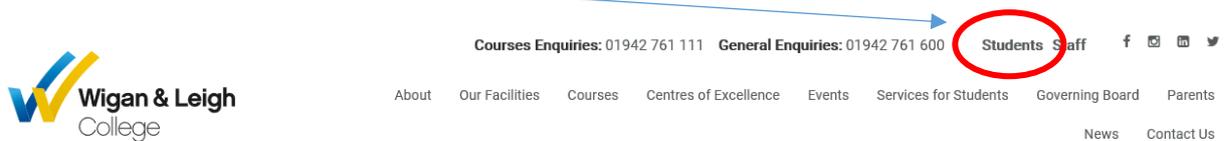

In light of recent government recommendations you will now be working at home, but don't worry each of your lessons will be available with the content that you'll need to complete the activity, so your learning will not be compromised.

At the time of your lesson, your tutor will be available to support you via email/Microsoft Teams.

Please follow the following guidance to of how to access your work.

Go onto the college website <https://www.wigan-leigh.ac.uk/>

Select students

This will then bring up the following page and you need to click into the VLE icon

Log in like you would on the college computers using your U number (on your ID card) and password.

This will then take you to the folders in the working from home section, this could be presented in a staff list or a day list in accordance to your timetable. Please see below for an example.

WORKING AT HOME [↗](#) Ed
▼

Due to COVID-19, some students will be working from home due to self-isolation. If this is the case you must still be following your normal timetable from home and complete work remotely. Please click on the folders below for your tutors and for any resources they will be putting up for your lessons.

For example, if Jim teaches you between 09:00-10:30 on a Monday, please go to his file and select the Monday lesson to complete the task.

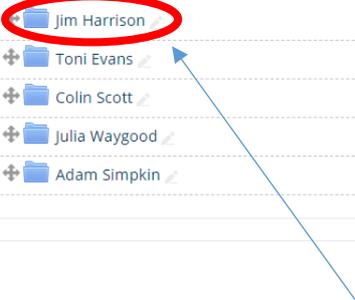

Some of your tasks may be on Microsoft Teams, so you will be directed to there if appropriate.

As always, the Staff are here to support you and make sure you obtain the highest grade possible. Therefore, please use this time well and contact us when required.

Thank you

[+ Add an activity or resource](#)

Once you click on the sub-folder, you will see a lesson by lesson detail, with the attached resources, for this example we have used Jim Harrison.

You will then be taken to the task/resources needed for that session, instructions of how to submit the work will be given on the document.
